

## PROFILE

Seeking web development opportunities involving back-end or full stack development. Fluent in JavaScript with Mongo DB / Express / React / Node.js. Creative, strategic, and flexible working with both technical and functional teams. Strong presentation, relationship building and communication skills.

## EXPERIENCE

### The ANA Project (2017 - Present)

**Tutor**

- Provide non-profit tutoring and mentor services to underserved youths of Washington DC public schools for SAT/ACT test preparation.

### Fruition Partners - A DXC Company (2014 - 2016)

**Technical Consultant**

- Created custom solutions to fulfill business requirements using JavaScript in conjunction with the ServiceNow library and maintained functional / technical documentation to track all development.
- Lead client engagements in implementing ITIL best practices to create, manage, and enhance ServiceNow instances.

**IT Engineer**

- Managed service desk, hardware, network, and cloud environments serving over 350 employees.
- Lead platform migration from Google to Microsoft involving SharePoint architecture design, communication planning, contractor management, go-live support, and employee training.

### Alion Science and Technology (2011 - 2014)

**Knowledge Management Analyst**

- Implemented Microsoft SharePoint across enterprise to provide consolidated data management, business process automation, site administration, portal development, and dashboard integration.
- Served as lead developer throughout entire project life cycle, involving Finance SOX auditing, HR ethics compliance, and IT cyber-security training.
- Reduced enterprise telecommunications spend by \$354k by consolidating mobile service providers, centralizing company accounts, and renegotiating service provider contracts.

### Whitener and Jackson General Contractors (2010 - 2011)

**Project Manager**

### Firstlight ERA (2009)

**Associate Sales Manager**

### Adcision Luxury Media (2007 - 2008)

**Business Analyst**

## EDUCATION

### Virginia Polytechnic and State University (2002 - 2007)

B.S. Economics, B.S. Biology (Concentration: Biotechnology), Chemistry Minor
